

# Butterflies and Overheads

Rosco Butterflies and Overheads are manufactured to fit the standard frames used in motion picture and television production – from 4'x4' (1.12 x 1.12 m) to 20'x20' (5.90 x 5.90 m), with custom sizes and finishing available as well.

Using a wide variety of popular filmmaking light modifying materials, Rosco Butterflies and Overheads can be used for diffusion, reflection, beam control & shaping, and modifying colour temperature. Digital compositing textiles such as Chroma Key Green and Blue are also available.

All Rosco Butterflies and Overheads are supplied edge-finished with ties and grommets inside a water-resistant bag. The material is sewn onto industrial strength webbing to provide strength and flexibility. The webbing for Nets and Silks is colour-coded to facilitate easy identification on set.

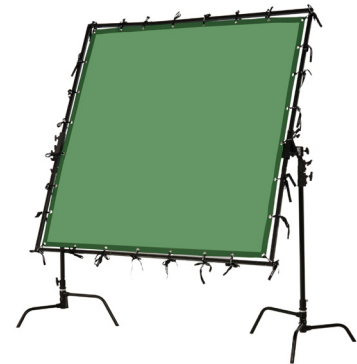

- Single Net (black and white) = Green
- Double Net (black and white) = Red
- Silks (natural and artificial) = Yellow

## STANDARD SIZES

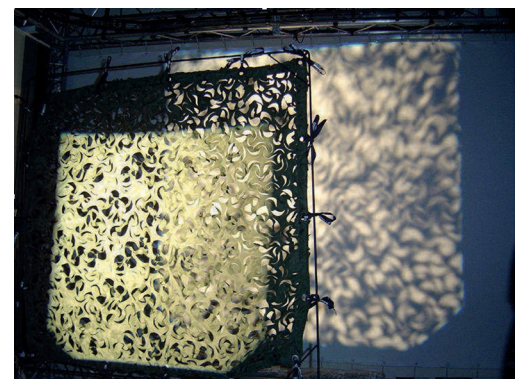

4' x 4' (1.12 m x 1.12 m)	12' x 12' (3.55 m x 3.55 m)
